

St. John the Baptist Catholic School

Program Feasibility Form

Many ideas and programs are suggested to St. John’s Catholic School each year and we want to encourage our families and community to be involved in the school in a positive and beneficial relationship. And, while the staff, community and parish that support the school want to see progress and new innovations, there are many things to consider when adding new programs. By conducting a feasibility study for any new suggestions, we can ensure that any program for consideration meets a few basic criteria. New programs must help the school to live out our mission as a Catholic educational system, it must be good for our students and there must be a plan for long-term sustainable staffing and funding for the program.
